## SUPPLEMENTAL INFORMATION: ParentSquare Contract

**Purpose:** To provide a single, comprehensive communication management system for school-to-home communications.

**Amount of Contract:** \$37,500

**Description/Scope of Services:**

ParentSquare provides a comprehensive platform through which recipients can receive communications in a clear and organized way and easily respond, when appropriate. The platform allows recipients to choose how and when they receive district and school communications, allowing them to choose their preferred mode of communication (text, email, voice), language, and frequency/timing of communications.

The system offers a consistent experience across schools, whether sending a communication to the entire district, a particular school, class or student, ensuring the intended recipients are receiving the communication in an effective and timely manner. Elementary, upper and high school educators have similar functionality to communicate effectively with students and families. The platform also streamlines communication efforts for school and district staff, increasing efficiency and reducing burden.
