

Notes:

Start and end time for Morse School Yr 25-26

Transportation issues since the start of the school year

School leaders have been working really hard on transportation issues.

The proposal is that either join the early tier school or the late tier school

Why would two tiers work?

It would give buses more time to make their runs

Survey blurb generated lots of questions

Curious to see the discrepancies between staff and families

What time frame are they looking at?

March and April to meet with the community. Could be next school year or the following year.

Follow-Up ELA grades 3-5

In the district our school has made the most growth

In the mid year our student are making 144% growth

To get to grade level our student are at 73%

Median? Every student

First grade has made the most growth

Foundations for next year

Is the gap closing? We are seeing that gap closing with our students with disabilities. From 1 yrs growth last year to 1.25 growth for this year.

Students in our structure academics class are making more growth than we've seen in past years

For students with EL status the gap is also closing with students showing more growth

Growth by race made significant growth as well

Some members are Wondering how many students per bar?

Central Focus

Planning for Caregiver Workshop

What is happening with students who we are identifying as needing executive functioning help?

Alexis Reid is helping our school and students think about the tools they need and what they need to achieve a goal.

Prompt?

One thing that disrupts the flow of the day or a time when they need extra support?

Dinner time taking too long and then not being able to play or do other things

Not knowing how to break it into parts to make it more manageable

Things feeling like they are always going the wrong way

Additional tasks don't get prioritized when there are more things on schedule

Gathering Input from Wider School Community

Digital or paper surveys

After the intro having a packet for families to dive deeper

You can give people tools but if they understand the behavior they might not know how to use the tools.

Helping parents understand the behaviors

How to leverage our experts to get the most accurate response

May 8th?

It would be successful if a parent leaves with 1-3 moves that they will try and be successful at
