I. Introductions

II. Peaches and Pits -

- *Kindergarten walk-thrus that morning were awesome!*
- *Working hard on responding to student behavior - will be seen in the data and slides in the school improvement plan. Student safety (physical and emotional) is paramount. Would love to see some caregivers work with us on some plans for responding to field trips when students are not safe - what can we do to preview and prevent last minute decisions to hold students back when they're not safe. Caregivers may not be able to attend a field trip without enough notice and we need a plan for assuring student safety if they are to attend. This could be a caregiver collaboration, using the current school committee policies.*

III. School Improvement Plan

We reviewed the attached slides for the School Improvement Plan. This is still a draft and Nancy is getting feedback from her supervisors. There are some notes embedded in some of the slides.
